Fonds de dotation OP3FT – 6, square Mozart 75016 Paris, France

SIREN: 750 584 864 – Numéro d'annonce JOAFE n°11 dated March 17, 2012: 1540

FOREWORD

Created in 2012, the OP3FT (Organization for the Promotion, Protection, and Progress of Frogans Technology) is a *Fonds de dotation* governed by French Law n°2008-776 of August 4, 2008 on the Modernization of the Economy.

The OP3FT is a non-profit organization acting in the public interest whose purpose is to hold, promote, protect and progress the Frogans technology in the form of an open standard for the Internet, available to all users, free of charge.

The OP3FT Bylaws were registered at the *Préfecture de Paris*, France, on February 21, 2012.

The declaration of creation of the OP3FT was published on March 17, 2012 on the *Journal Officiel* of the French Republic (JOAFE n°11) under number 1540.

The OP3FT head office is located 6 square Mozart, 75016 Paris, France.

The OP3FT was created with an initial endowment granted free of charge and irrevocably by its Founder, the company STG Interactive S.A. The OP3FT's endowment is non-expendable. Properties and rights constituting the endowment are inalienable and non-transferable.

The initial endowment of the OP3FT includes properties and rights relating to the Frogans technology, notably languages, technical specifications, software development systems, software source codes, trademarks, patents and domain names, as well as related intellectual property rights. It does not include any securities or monies.

The OP3FT carries out works to fulfill its public interest mission in relation to the Frogans technology. These works, which are described in details in article 5 of the OP3FT Bylaws, are carried out under the responsibility of permanent working teams within the OP3FT.

The OP3FT is forbidden to conduct any for-profit activities, even on an accessory basis. The OP3FT's resources for the financing of its public interest mission are constituted by the revenues of its endowment and donations stemming from public generosity.

In accordance with the OP3FT Bylaws, the endowment revenues are exclusively derived from the operating license granted by the OP3FT to the Frogans Core Registry Operator, under a delegation agreement.

This Activity Report covers the first accounting period of the OP3FT, from March 17, 2012 to December 31, 2012. During this first nine-and-a-half month accounting period, the OP3FT (i) did not make any reallocation as defined under article 140 of the August 4, 2008 French Law, (ii) did not receive any donation, and (iii) did not call on the generosity of the public.

In accordance with the OP3FT Bylaws, in addition to the information required by French laws and regulations, this Activity Report lays out the properties and rights assigned to the increase of the endowment over the past year, and the detail of resources originating from the endowment revenues.

This Activity Report was adopted by the Board of directors of the OP3FT on June 11, 2013.

It will be published and archived on the OP3FT's Web site "op3ft.org" together with an English translation, as soon as the development of the OP3FT's Web site is achieved, at the following permanent URLs (Uniform Resource Locators):

- in English: <https://www.op3ft.org/en/resources/ar/access.html>
- in French: <https://www.op3ft.org/fr/resources/ar/access.html>

I. MISSION AND GOVERNANCE OF THE OP3FT

I.1 REMINDER OF THE PURPOSE OF THE OP3FT

The OP3FT is a non-profit organization created on March 17, 2012 whose purpose is to hold, promote, protect and progress the Frogans technology in the form of an open standard for the Internet, available to all users, free of charge.

More generally, the purpose of the OP3FT is to contribute to the development of a stable and safe Internet that is open to innovation, and to support and finance innovative actions or initiatives taken in the public interest, of a cultural, educative, or welfare-based nature, in the area of information and communications technology.

The Frogans technology, both secure and simple, allows the publication of Frogans sites. A Frogans site is a set of Frogans pages, hyperlinked among one another, available on-line on the Internet or an intranet, at a Frogans address.

The OP3FT aims that, following the example of what happened with the World Wide Web from the 90s, an ecosystem flourish on top of the Frogans technology, fostering employment, innovation and economic development, in the public interest.

I.2 BOARD OF DIRECTORS

Members of the Board of directors are exclusively natural persons, acting on their own behalf and gratuitously.

Directors undertake to act in total independence and neutrality with respect to vested interests, including those of legal entities in which they might hold a position, whilst respecting the founding principles outlined in the OP3FT Bylaws.

On December 31, 2012, the OP3FT Board of directors was composed of the three first directors appointed on the date of the OP3FT's creation:

- Mr. Amaury GRIMBERT,
- Mr. Alexis TAMAS,
- Mr. Alain MARTEL.

The President of the Board of directors is Mr. Amaury GRIMBERT.

Between March 17, 2012 and December 31, 2012, the OP3FT Board of directors met 14 times at the head office.

The main decisions of the OP3FT's Board of directors notably focused on:

- the granting of the President of a general mandate to set up the OP3FT with a view to carry out works in relation to the Frogans technology, in the public interest, including the recruitment of salaried employees and independent contractors, the rental of premises and the purchase of equipment;
- the appointment of a Statutory Auditor, an alternate Statutory Auditor, and a Chartered Accountant;
- the appointment of two individuals known to be proficient in financial management to the Investment Committee;
- the signing of the delegation agreement with the Frogans Core Registry (FCR) Operator;
- the submission of an application to ICANN (Internet Corporation for Assigned Names and Numbers) for obtaining the delegation of the ".frogans" gTLD (generic Top Level Domain) in order to ensure the security, stability and reliability of the Frogans layer for the benefit of all Internet users;
- the signing of a DNS back-end registry operator contract with the AFNIC (*Association Française pour le Nommage Internet en Coopération*) for the operation of the ".frogans" gTLD;
- the creation of a compliance team within the OP3FT, to ensure that the OP3FT carries out its public interest works in relation to the Frogans technology in compliance with the founding principles defined in its Bylaws.

In 2012, the OP3FT Board of directors did not engage in the public consultation process referred to in article 13 of its Bylaws, since the Frogans Core Registry was not open to Internet users.

I.3 INVESTMENT COMMITTEE

On December 31, 2012, the two members of the Investment Committee, who are individuals known to be proficient in financial management and who perform their duty gratuitously were:

- Mr. Julien COQUET,
- Mr. Erik POINTILLART.

The Investment Committee did not meet in 2012. It is reminded that the OP3FT's initial endowment does not include any securities or monies.

II. ACTIVITIES OF THE OP3FT

II.1 WORKS IN RELATION TO THE FROGANS TECHNOLOGY

The works that the OP3FT must carry out in the public interest, under the supervision of the Board of directors, are detailed in its Bylaws (article 5, pages 5 to 10).

During the accounting period running from March 17, 2012 to December 31, 2012, works carried out by the OP3FT in order to hold, promote, protect, and progress the Frogans technology mainly focused on:

- the establishment of the OP3FT, including notably the formation of the initial team, the take-over of the premises and the installation of the information system;
- the general organization of the OP3FT's works in the long term;
- the management of the OP3FT's trademarks, patents and domain names;
- the development of the main complementary and indissociable components of the Frogans technology;
- the elaboration of the OP3FT policies, including the Frogans Technology User Policy;
- the preparation of the dissemination of the Frogans technology;
- the elaboration and submission of an application to ICANN in view of obtaining the delegation of the ".frogans" gTLD;

In its manner of carrying out works in relation to the Frogans technology, the OP3FT saw to it that provisions of article 5 of its Bylaws were respected.

More particularly, the OP3FT endeavored to include in the choices it made while carrying out works in relation to the Frogans technology a clear statement presenting the reasoning behind the said choices ("rationale").

Pending the completion of the development of the "op3ft.org" and "frogans.org" Web sites, the OP3FT published the interim versions of these Web sites on June 12, 2012. These interim versions contain the OP3FT's legal notice.

On December 31, 2012, due to delays in the operational establishment of the OP3FT, the OP3FT Bylaws, the Board of directors' meeting minutes, as well as the list of directors together with their contact information had not yet been published and archived on the OP3FT's Web site "op3ft.org".

Likewise, on December 31, 2012 the OP3FT policies, technical specifications, as well as the delegation agreement with the Frogans Core Registry Operator were not published and archived on the official Web site of the Frogans technology "frogans.org".

In accordance with its Bylaws, the OP3FT carried out works in relation to the Frogans technology according to its financial and human resources available in 2012.

II.2. OTHER PUBLIC INTEREST ACTIONS FINANCED BY THE OP3FT

The purpose of the OP3FT includes the support and financing of innovative actions or initiatives taken in the public interest, of a cultural, educative, or welfare-based nature, in the area of information and communications technology, whose criteria for selection are set by the Board of directors.

The support and financing of such actions, programs and initiatives are conducted in accordance with the principles of openness and transparency that contribute to the dissemination to the greater public of progresses made in the area of information and communications technology.

On December 31, 2012, the OP3FT had not financed any innovative actions or initiatives taken in the public interest led by third parties, as it had used all available resources to finance works toward achieving its public interest mission in relation to the Frogans technology.

Consequently, the OP3FT did not make any reallocation as defined under article 140 of the August 4, 2008 French Law.

II.3 ORGANIZATION AND INTERNAL FUNCTIONING

The OP3FT salaried employees and independent contractors formally pledge to act in total independence and neutrality with respect to vested interests, whilst respecting the founding principles defined in the OP3FT Bylaws.

The formation of the OP3FT work teams began on July 2012.

On December 31, 2012, the OP3FT work teams consisted of 24 persons, comprising:

- 10 salaried employees;
- 7 specialized independent contractors intervening regularly;
- 3 regular contributors, including the two creators of the Frogans technology mentioned in article 9 of the OP3FT Bylaws;
- 4 specialized independent contractors intervening occasionally;

These work teams involve individuals with varied profiles (engineers, legal professionals, etc.), intervening in works related to the promotion, protection and progress of the Frogans technology.

On December 31, 2012, the internal rules and regulations of the OP3FT were in the process of being elaborated by the Board of directors.

II.4. DEALINGS WITH THIRD PARTIES

The OP3FT elaborated a standard service agreement governing the relations between the OP3FT and independent contractors that intervene regularly. This agreement notably ensures that the OP3FT fully and completely owns works carried out by independent contractors so as to be able, upon decision of the Board of directors, to assign such works, in whole or in part, to the OP3FT's endowment.

On March 19, 2012, the OP3FT signed a delegation agreement under which the OP3FT grants a license to operate the Frogans Core Registry to the company STG Interactive S.A. as the Frogans Core Registry (FCR) Operator. Under the delegation agreement, the OP3FT and the Frogans Core Registry Operator regularly cooperated between March 19, 2012 and December 31, 2012 on legal, technical and administrative related matters regarding the development and implementation of the Frogans Core Registry.

On May 30, 2012, the OP3FT submitted an application to ICANN (Internet Corporation for Assigned Names and Numbers) for obtaining the delegation of the ".frogans" gTLD (generic Top Level Domain) in order to ensure the security, stability and reliability of the Frogans layer for the benefit of all Internet users;

On April 3, 2012, the OP3FT signed a DNS back-end registry operator contract with the AFNIC (*Association Française pour le Nommage Internet en Coopération*) for the operation of the ".frogans" gTLD.

III. ENDOWMENT OF THE OP3FT

III.1 INITIAL ENDOWMENT

In accordance with the OP3FT Bylaws, the OP3FT's endowment is non-expendable. Properties and rights constituting the endowment are inalienable and non-transferable, regardless of whether they were granted at the time of the OP3FT's creation as the initial endowment, or during its lifetime pursuant to an increase of the endowment.

The OP3FT was created with an initial endowment granted free of charge and irrevocably by its Founder. The initial endowment includes properties and rights relating to the Frogans technology, notably languages, technical specifications, software development systems, software source codes, trademarks, patents and domain names, as well as related intellectual property rights.

The complete list of properties and rights constituting the initial endowment is presented in Annex 2 of the OP3FT Bylaws. The initial endowment does not include any securities or monies.

The events that took place over the past year concerning the properties and rights constituting the OP3FT's endowment at the beginning of the year are presented in Annex 1 of this Activity Report.

On December 31, 2012, most of the concerned national, regional and international offices had processed notices of transfer to the benefit of the OP3FT for that which concerns trademarks, patents and domain names.

III.2 INCREASE OF THE ENDOWMENT

In accordance with the OP3FT Bylaws, the endowment is increased, during the OP3FT lifetime, by properties and rights assigned to it.

Properties and rights created and developed in 2012 by the OP3FT within the exercise of its public interest mission in relation to the Frogans technology, through its salaried employees or independent contractors, were assigned to the OP3FT's endowment.

These properties and rights created and developed by the OP3FT within the exercise of its public interest mission in relation to the Frogans technology and assigned to the increase of the endowment over the past year are presented in Annex 2 of this Activity Report.

Likewise, properties and rights granted free of charge and irrevocably in 2012 by third parties, including the two creators of the Frogans technology, contributing to the public interest mission of the OP3FT in relation to the Frogans technology, were assigned to the endowment, including the properties and rights in relation to the Frogans technology created and developed by the Founder of the OP3FT since its November 29, 2011 General Meeting deciding the creation of the OP3FT.

These properties and rights granted free of charge and irrevocably by third parties contributing to the public interest mission of the OP3FT in relation to the Frogans technology and assigned to the increase of the endowment over the past year are presented in Annex 3 of this Activity Report.

In order not to restrict the conditions of use of the Frogans technology, these third parties, referred to as "Contributors", granted free of charge and irrevocably, the entire right, title and interest in their contribution to the OP3FT, in accordance with the OP3FT Bylaws.

IV. RESOURCES OF THE OP3FT

IV.1 ENDOWMENT REVENUES

In accordance with its Bylaws, the OP3FT is forbidden to conduct any for-profit activities, even on an accessory basis. Consequently, no revenue from profit-making activities of the OP3FT, or compensation for services provided by the OP3FT, may be added to its resources.

The OP3FT's resources for the financing of its public interest mission are constituted by the revenues of its endowment.

In accordance with the OP3FT Bylaws, endowment revenues are exclusively derived from the operating license granted by the OP3FT to the Frogans Core Registry Operator, under the delegation agreement.

On December 31, 2012, endowment revenues derived from the Frogans Core Registry operating license granted by the OP3FT to the Operator amounted to 1,050,000 euros, recorded as "*Revenus de la dotation*".

On December 31, 2012, the OP3FT had not called for donations stemming from public generosity, and consequently had not received any other donations.

IV.2. USE OF RESOURCES

In accordance with its Bylaws, the OP3FT's resources are used to finance works carried out to fulfill its public interest mission in relation to the Frogans technology, as well as the OP3FT day-to-day operations expenditures.

On December 31, 2012, the OP3FT had the means of action described in part II. of this Activity Report. These means of action notably include the recruitment of salaried employees and independent contractors, the rental of premises and the purchase of equipment.

On December 31, 2012, the OP3FT operating costs amounted to 832,756 euros, out of which 498,989 euros concerned the use of independent contractors and the rental of premises ("*Services extérieurs*" and "*Autres services extérieurs*") and 301,156 euros concerned salaried employees ("*Salaires et traitements*" and "*Charges sociales*").

"*Services extérieurs*" mainly includes: services provided in relation to works carried out to progress the Frogans technology (software development and technical specification elaboration), and the cost of premises rental, including the OP3FT head office.

"*Autres services extérieurs*" mainly includes: services provided in relation to works carried out to promote and protect the Frogans technology (expenses for the ".frogans" gTLD application filed with ICANN, intellectual property expenses for trademarks and domain names, expenses related to the organization of the OP3FT's works, recruitment and human resources management expenditures) as well as services provided in relation to social and accounting follow-up and to the control mission of the Statutory Auditor.

On December 31, 2012, the OP3FT resources had been used within 12 months of receipt, in accordance with its Bylaws.

On December 31, 2012, the OP3FT had not made any reallocation as defined under article 140 of the August 4, 2008 French Law.

V. ANNUAL FINANCIAL STATEMENT

The Statutory Auditor of the OP3FT is company 3A CONSEIL (34 rue de Liège, 75008 Paris, France) represented by Mr. Marc de SALINELLES ; the alternate Statutory Auditor is Mr. Philippe COLOMBE (6 rue Brey, 75017 Paris, France).

The Chartered Accountant of the OP3FT is Cabinet HYART, represented by Mr. Frédéric HYART (7 rue du Four St Jacques, 60200 Compiègne, France).

The OP3FT has drawn up a financial statement, which includes a balance sheet and a profit and loss statement, for its first accounting period beginning on March 17, 2012, the publication date of the OP3FT's creation on the *Journal Officiel* of the French Republic, and ending on December 31, 2012.

The annual financial statement for the year ending December 31, 2012 was adopted by the Board of directors on May 28, 2013. The Statutory Auditor's report is dated June 7, 2013.

The OP3FT's 2012 annual financial statement and the Statutory Auditor's report will be published and archived on the OP3FT's Web site "op3ft.org" together with a presentation in English, as soon as the development of the OP3FT's Web site is achieved, at the following permanent URLs (Uniform Resource Locators):

- in English: <https://www.op3ft.org/en/resources/afs/access.html>
- in French: <https://www.op3ft.org/fr/resources/afs/access.html>

The OP3FT's 2012 annual financial statement and the Statutory Auditor's report will be registered by electronic means through the Web site "http://www.journal-officiel.gouv.fr/".

By June 30, 2013, *i.e.* within 6 months following the end of its accounting period, the OP3FT will send this Activity Report to the *Préfecture de Paris*, together with the 2012 annual financial statement and the Statutory Auditor's report.

Executed in Paris on June 11, 2013, in two original copies, one to be registered at the *Préfecture de Paris*, the other to be kept at the OP3FT head office.

On behalf of the OP3FT, Mr. Amaury Grimbert,
President of the Board of directors

ANNEX 1 — Events that took place over the past year concerning the properties and rights that constituted the OP3FT's endowment at the beginning of the year

On the day of the OP3FT's creation on March 17, 2012, the endowment consisted in the initial endowment granted free of charge and irrevocably by its Founder.

The list of properties and rights constituting the OP3FT's initial endowment is presented in Annex 2 of the OP3FT Bylaws.

The events that took place since the OP3FT Founder's General Meeting dated November 29, 2011 deciding the creation of the OP3FT and over the past year concerning properties and rights are presented below:

A. The Frogans Technology

C3. The patent "A User-Friendly Process for Interacting with Informational Content on Touchscreen Devices"

- Rights on the PCT application published under WO 2010/115744 were lost in Japan, China, South Korea and India following the missing of a deadline by Camus-Lebkiri, an intellectual property attorney firm in Paris

D. Domain names

- Domain names listed in the Bylaws under part D of Annex 2 that were pending registration have been registered
- Domain names listed in the Bylaws under part D of Annex 2 that were registered and that were reaching their term have been renewed

ANNEX 2 — Properties and rights created and developed by the OP3FT within the exercise of its public interest mission in relation to the Frogans technology and assigned to the increase of the endowment over the past year

Between the day of the OP3FT's creation on March 17, 2012 and December 31, 2012, the OP3FT's endowment was increased in accordance with article 17 of the Bylaws by the assignment of properties and rights created and developed by the OP3FT within the exercise of its public interest mission in relation to the Frogans technology, this being through its salaried employees or independent contractors, in the course of the creation and development of such properties and rights.

The list of these rights and properties is presented below.

The OP3FT's endowment being non-expendable, properties and rights thusly assigned to the endowment are inalienable and non-transferable.

A. The Frogans Technology

- The entire research and development works regarding the development of the OP3FT technical specifications: these specifications are UPIL (ex FDKML), UCSR, UDSM, IFAP, FACR, FCR API, FPUL, FNSL and FSDL.
- The entire research and development works regarding the development of the OP3FT software libraries: these software libraries are reference implementations of the OP3FT technical specifications.
- The entire research and development works regarding the development of Frogans Player: this software includes FPRT, a common runtime engine, and user interfaces (GUIs) for each supported platform.
- The entire research and development works regarding FPXDE, the cross-platform development environment of the OP3FT: this environment includes a source code compilation and assembly chain, a test system, and a wrapper generator for software libraries.
- The entire documentation works on the Frogans technology: this documentation includes technical documents, legal documents, documents for the promotion of the Frogans technology, and Frogans site prototypes.

B. Trademarks

None

D3. Domain names associated with the "FNSL" trademark

None

D4. Domain names associated with the "OP3FT" trademark

- Domain names with typographical errors: opft.org (November 12, 2012); op1ft.org (November 12, 2012); op2ft.org (November 12, 2012); op4ft.org (November 12, 2012); op5ft.org (November 12, 2012); op6ft.org (November 12, 2012); op7ft.org (November 12, 2012); op8ft.org (November 12, 2012); op9ft.org (November 12, 2012).

D5. Other domain names associated with the Frogans technology

None

ANNEX 3 — Properties and rights granted free of charge and irrevocably by third parties contributing to the public interest mission of the OP3FT in relation to the Frogans technology and assigned to the increase of the endowment over the past year

Between the day of the OP3FT's creation on March 17, 2012 and December 31, 2012, the OP3FT's endowment was increased in accordance with article 17 of the Bylaws, by assigning properties and rights granted free of charge and irrevocably by third parties contributing to the public interest mission of the OP3FT in relation to the Frogans technology, and that the OP3FT accepted.

These third parties are referred to as "Contributors".

Rights related to the various contribution cases presented below were granted to the OP3FT by Contributors.

The OP3FT's endowment being non-expendable, properties and rights thusly assigned to the endowment are inalienable and non-transferable.

1. Contribution to the development of the technical specifications

- Participation in the writing of the technical specifications: Contributors participated in the design and drafting of the OP3FT technical specifications
- Review of technical specifications before their adoption: Contributors carried out a detailed study of the OP3FT technical specifications before their adoption by the OP3FT

2. Contribution to the development of the software libraries

- Participation in the development of software libraries: Contributors participated in the design and programming of the OP3FT software libraries
- Participation in the development of software library wrappers: Contributors participated in the design and programming of the OP3FT software library wrappers
- Test of software libraries: the Contributors designed and implemented test programs for the OP3FT software libraries and their wrappers

3. Contribution to the development of Frogans Player

- Participation in the integration and maintenance of target platforms: Contributors participated in the integration and maintenance operations of target platforms in the FPXDE development environment
- Participation in the development of the Frogans Player runtime engine: Contributors participated in the design and programming of the runtime engine of the Frogans Player software

- Participation in the development of the Frogans Player GUIs: Contributors participated in the design and programming of the Frogans Player software GUIs

4. Other contribution cases

- Participation in the production of practical resources: Contributors participated in the design, production and translation of practical resources to be published by the OP3FT
- Participation in the elaboration of the OP3FT policies: Contributors participated in the drafting and translation of the OP3FT policies
