Fonds de dotation OP3FT – 6, square Mozart 75016 Paris, France

SIREN: 750 584 864 – Numéro d'annonce JOAFE n°11 dated March 17, 2012: 1540

FOREWORD

Created in 2012, the OP3FT (Organization for the Promotion, Protection, and Progress of Frogans Technology) is a *Fonds de dotation* governed by French Law n°2008-776 of August 4, 2008 on the Modernization of the Economy.

The OP3FT is a non-profit organization acting in the public interest. Its purpose is to hold, promote, protect and ensure the progress of the Frogans technology, in the form of an open standard for the Internet, available to all, free of charge.

The OP3FT Bylaws were registered at the *Préfecture de Paris*, France, on February 21, 2012.

The declaration of creation of the OP3FT was published on March 17, 2012 in the *Journal Officiel* of the French Republic (JOAFE n°11) under number 1540.

The OP3FT's registered office is located 6 square Mozart, 75016 Paris, France.

The OP3FT was created with an initial endowment granted free of charge and irrevocably by its Founder, the company STG Interactive S.A. The OP3FT's endowment is non-expendable. Properties and rights constituting the endowment are inalienable and non-transferable.

The initial endowment of the OP3FT includes properties and rights relating to the Frogans technology, notably languages, technical specifications, software development systems, software source codes, trademarks, patents and domain names, as well as the related intellectual property rights. It does not include any securities nor monies.

The OP3FT carries out works to fulfill its public-interest mission in relation to the Frogans technology. These works, described in detail in Article 5 of the OP3FT Bylaws, are carried out under the responsibility of permanent working teams within the OP3FT.

The OP3FT refrains from any for-profit activity, even secondary. The OP3FT's resources for the financing of its public-interest mission are constituted by the revenues of its endowment and by any donations that might stem from public generosity.

In accordance with the OP3FT Bylaws, the endowment revenues are exclusively derived from the operating license granted by the OP3FT to the Frogans Core Registry Operator, under a delegation agreement.

This Activity Report covers the second accounting period of the OP3FT, from January 1, 2013 to December 31, 2013. During this second accounting period of 12 months, the OP3FT (i) did not make any reallocations as defined under Article 140 of the August 4, 2008 French Law, (ii) did not receive any donations, and (iii) did not call on public generosity.

In accordance with the OP3FT Bylaws, this Activity Report lays out, in addition to the information required by French laws and regulations, the properties and rights assigned to the increase of the endowment over the past year, and the details of resources originating from the endowment revenues.

This Activity Report was adopted by the OP3FT Board of Directors on June 24, 2014.

It will be published and archived on the OP3FT's Web site "op3ft.org", along with a translation in English, within no more than 7 days after approval, at the following permanent URLs (Uniform Resource Locators):

- in English: <https://www.op3ft.org/en/resources/ar/access.html>

- in French: <https://www.op3ft.org/fr/resources/ar/access.html>

I. MISSION AND GOVERNANCE OF THE OP3FT

I.1. REMINDER OF THE PURPOSE OF THE OP3FT

The OP3FT is a non-profit organization created on March 17, 2012 whose purpose is to hold, promote, protect and ensure the progress of the Frogans technology, in the form of an open standard for the Internet, available to all, free of charge.

More generally, the OP3FT's purpose is to contribute to the development of a secure and stable Internet that is open to innovation, and to support and finance innovative public-interest initiatives or actions of a social, educational or cultural nature in the area of information and communications technologies.

The Frogans technology, secure and simple, enables the publishing of Frogans sites. A Frogans site is a set of Frogans pages, hyperlinked to each other, available online on the Internet or in an intranet, at a Frogans address.

In a manner comparable to the development of the World Wide Web from the 90s, the OP3FT's aim is that an ecosystem flourish on top of the Frogans technology, fostering employment, innovation and economic development, in the public interest.

I.2. BOARD OF DIRECTORS

All members of the OP3FT Board of Directors are natural persons, carrying out their duties in a personal capacity and without receiving a financial counterpart.

The Directors act in an independent and neutral manner with respect to special interests, including those of legal entities in which they might hold a position, whilst respecting the founding principles defined in the OP3FT Bylaws.

As of December 31, 2013, the OP3FT Board of Directors was composed of the three Initial Directors appointed on the date of the OP3FT's creation:

- Mr Amaury GRIMBERT,
- Mr Alexis TAMAS,
- Mr Alain MARTEL.

The President of the Board of Directors is Mr Amaury GRIMBERT.

Between January 1, 2013 and December 31, 2013, the OP3FT Board of Directors met 16 times at the registered office.

The main decisions of the OP3FT Board of Directors were as follows:

- to put the Web sites "op3ft.org" and "frogans.org" online, including their respective conditions of use;
- to make the Frogans technology mailing lists available from the Web site "lists.frogans.org", including their conditions of use;
- to launch operations, initially to the attention of intellectual property sector professionals, in order to promote the Frogans technology;
- to present the Frogans project at the International Domain Name Conference 2013 in Paris, France;
- to have the OP3FT participate in the LeWeb'13 conference in Paris, France, and in the ICANN 48 meeting in Buenos Aires, Argentina;
- to organize an exploratory mission in China to assess the conditions for setting up a permanent OP3FT representation in Beijing;
- to adopt the list of "Reserved Terms for the registration of Frogans Addresses";
- to adopt and approve the preceding Annual Financial Statement and Activity Report;
- to nominate a liaison person for the CNIL (*Commission nationale de l'informatique et des libertés française*), the French Data Protection Authority;
- to have the OP3FT become a member of the CFF (*Centre Français des Fonds et Fondations*), the French Foundation Center;
- to sign an agreement with ICANN (Internet Corporation for Assigned Names and Numbers) relative to the delegation of the ".frogans" gTLD (generic top-level domain) in order to ensure the security, stability and reliability of the Frogans layer for the benefit of all Internet users.

In 2013, the OP3FT Board of Directors did not engage in the public consultation process referred to in Article 13 of its Bylaws, since the Frogans Core Registry was not yet open to Internet users.

I.3. INVESTMENT COMMITTEE

As of December 31, 2013, the two members of the Investment Committee, considered qualified in financial management and who perform their duties without receiving a financial counterpart, were:

- Mr Julien COQUET,
- Mr Erik POINTILLART.

The Investment Committee did not meet in 2013. It is here restated that the OP3FT's initial endowment does not include any securities nor monies.

II. ACTIVITIES OF THE OP3FT

II.1. WORKS IN RELATION TO THE FROGANS TECHNOLOGY

The works that the OP3FT must carry out in the public interest, under the supervision of the Board of Directors, are detailed in its Bylaws (Article 5, pages 5 to 10).

During the accounting period running from January 1, 2013 to December 31, 2013, works carried out by the OP3FT in order to hold, promote, protect, and ensure the progress of the Frogans technology mainly focused on:

- the general organization of the OP3FT's works in the long term;
- the management of the OP3FT's trademarks, patents and domain names;
- the development of the main, complementary and inseparable components of the Frogans technology;
- the elaboration of the OP3FT's policies, including the Frogans Technology User Policy, and the Uniform Dispute Resolution Policy for Frogans Addresses (UDRP-F);
- the preparation and launch of operations to the attention of intellectual property sector professionals, in order to promote the Frogans technology worldwide, including, for example, a presentation given to the Internet and Trademark Committee of the APRAM (*Association des Praticiens du Droit des Marques et des Modèles*), the French Association of Trademark and Design Law Practitioners in Paris, France;
- the creation of free-of-charge and reusable practical resources, to help understand, use and benefit from the Frogans technology, including, for example, the resources entitled "Context of the introduction of Frogans sites on the Internet", "The 4 permanent objectives of the Frogans project" and "Position of the Frogans technology in the Internet";
- the management of the OP3FT's Web sites and of the Frogans technology mailing lists, including setting up, in a data center located in Paris, a rack of dedicated servers in order to ensure their secure hosting;
- the management of the application to ICANN (Internet Corporation for Assigned Names and Numbers) with a view to obtaining the delegation of the ".frogans" gTLD (generic top-level domain).

In its manner of carrying out works in relation to the Frogans technology, the OP3FT made sure that the provisions of Article 5 of its Bylaws were respected.

More particularly, in the choices it made while carrying out works in relation to the Frogans technology, the OP3FT endeavored to include a clear statement presenting the reasoning behind the said choices ("rationale").

As of December 31, 2013, the OP3FT Bylaws and the list of Directors along with their contact information, were published and archived on the OP3FT's Web site "op3ft.org", along with a translation in English. However, with the exception of the Board meeting minutes of June 11, 2013, neither the Board meeting minutes nor the delegation agreement with the Frogans Core Registry Operator have yet been published and archived, along with their translation in English, on, respectively, the OP3FT's Web site "op3ft.org" and on the official Web site of the Frogans technology "frogans.org".

In accordance with its Bylaws, the OP3FT carried out works in relation to the Frogans technology according to its financial and human resources available in 2013.

II.2. OTHER PUBLIC-INTEREST ACTIONS FINANCED BY THE OP3FT

The purpose of the OP3FT includes supporting and financing innovative public-interest initiatives or actions of a social, educational or cultural nature in the area of information and communications technologies, whereby the criteria for selection are set by the Board of Directors.

The supporting and financing of these actions, programs or initiatives are conducted in accordance with the principles of openness and transparency that contribute to passing on, to as many people as possible, the benefits of progress made in the area of information and communications technologies.

During the year 2013, the OP3FT did not finance any innovative public-interest initiatives or actions led by third parties, as it had used all available resources to finance works carried out to ensure its public-interest mission in relation to the Frogans technology.

Consequently, the OP3FT did not make any reallocations as defined under Article 140 of the August 4, 2008 French Law.

II.3. ORGANIZATION AND INTERNAL FUNCTIONING

The OP3FT's salaried employees and independent contractors give a formal undertaking to act in a fully independent and neutral manner with regards to special interests and to respect the founding principles defined in the OP3FT Bylaws.

As of December 31, 2013, the OP3FT work teams consisted of 34 persons, as follows:

- 8 salaried employees;
- 13 specialized independent contractors intervening regularly;
- 3 regular contributors, including the two Inventors of the Frogans technology mentioned in Article 9 of the OP3FT Bylaws;
- 10 specialized independent contractors intervening occasionally.

These work teams consist of individuals with varied profiles (engineers, legal professionals, etc.), intervening in works related to the promotion, protection and progress of the Frogans technology.

As of December 31, 2013, the Rules of Procedure of the OP3FT were in the process of being elaborated by the Board of Directors.

II.4. DEALINGS WITH THIRD PARTIES

During the year 2013, the OP3FT increased the number of independent contractors intervening regularly within the work teams. The OP3FT service agreement signed with such independent contractors guarantees, in particular, that the OP3FT fully and completely owns the works carried out by them, so that the OP3FT, by decision of the Board of Directors, can assign such works, in whole or in part, to the OP3FT's endowment.

Within the context of the delegation agreement signed on March 19, 2012, the OP3FT and the Frogans Core Registry Operator regularly cooperated throughout the entire year of 2013 on legal, technical and administrative matters relative to the development and to the implementation of the Frogans Core Registry.

On December 19, 2013, the OP3FT signed an agreement with ICANN (Internet Corporation for Assigned Names and Numbers) relative to the delegation of the ".frogans" gTLD (generic top-level domain).

During the year 2013, the OP3FT pursued its relation with AFNIC (*Association Française pour le Nommage Internet en Coopération*), the French Network Information Centre, within the context of the DNS back-end registry operator contract signed for the operation of the ".frogans" gTLD.

III. ENDOWMENT OF THE OP3FT

III.1. INITIAL ENDOWMENT

In accordance with the OP3FT Bylaws, the OP3FT's endowment is non-expendable. Properties and rights constituting the endowment are inalienable and non-transferable, regardless of whether they were granted at the time of the OP3FT's creation as the initial endowment, or during its lifetime pursuant to an increase of the endowment.

The OP3FT was created with an initial endowment granted free of charge and irrevocably by its Founder. The initial endowment includes properties and rights relating to the Frogans technology, notably languages, technical specifications, software development systems, software source codes, trademarks, patents and domain names, as well as the related intellectual property rights.

The complete list of properties and rights constituting the initial endowment is given in Annex 2 of the OP3FT Bylaws. The initial endowment does not include any securities nor monies.

The events that took place over the past year concerning the properties and rights constituting the OP3FT's endowment at the beginning of the year, are given in Annex 1 of this Activity Report.

As of December 31, 2013, all concerned national, regional and international offices had processed notices of transfer to the benefit of the OP3FT regarding trademarks, patents and domain names, with the exception, however, of notices of transfer still in course of patents concerning India and the Republic of Korea.

III.2. INCREASE OF THE ENDOWMENT

In accordance with the OP3FT Bylaws, the endowment is increased, during the OP3FT's lifetime, by properties and rights assigned to it.

Properties and rights created and developed in 2013 by the OP3FT as part of its public-interest mission in relation to the Frogans technology, through its salaried employees and independent contractors, were assigned to the OP3FT's endowment.

These properties and rights created and developed by the OP3FT as part of its public-interest mission in relation to the Frogans technology and assigned to the increase of the endowment over the past year, are listed in Annex 2 of this Activity Report.

Likewise, properties and rights granted free of charge and irrevocably in 2013 by third parties, including by the two Inventors of the Frogans technology, and contributing to the public-interest mission of the OP3FT in relation to the Frogans technology, were assigned to the endowment.

These properties and rights granted free of charge and irrevocably by third parties contributing to the public-interest mission of the OP3FT in relation to the Frogans technology and assigned to the increase of the endowment over the past year, are listed in Annex 3 of this Activity Report.

In order not to restrict the conditions of use of the Frogans technology, these third parties, referred to as "Contributors", granted free of charge and irrevocably, all and any rights relative to their contributions to the OP3FT, in accordance with the OP3FT Bylaws.

IV. RESOURCES OF THE OP3FT

IV.1. ENDOWMENT REVENUES

In accordance with its Bylaws, the OP3FT is forbidden to conduct any for-profit activities, even on an accessory basis. Consequently, no revenue from profit-making activities of the OP3FT, or compensation for services provided by the OP3FT, may be added to its resources.

The OP3FT's resources for the financing of its public-interest mission are constituted by the revenues of its endowment.

In accordance with the OP3FT Bylaws, endowment revenues are exclusively derived from the operating license granted by the OP3FT to the Frogans Core Registry Operator, under a delegation agreement.

As of December 31, 2013, endowment revenues derived from the Frogans Core Registry operating license granted by the OP3FT to the Operator amounted to 1,800,000 euros, recorded as "*Revenus de la dotation*".

As of December 31, 2013, the OP3FT had not called for donations stemming from public generosity, and consequently had not received any donations.

IV.2. USE OF RESOURCES

In accordance with its Bylaws, the OP3FT's resources are used to finance works carried out to fulfill its public-interest mission in relation to the Frogans technology, as well as the OP3FT's day-to-day operations expenditures.

As of December 31, 2013, the OP3FT had the levers of action described in part II of this Activity Report. These levers of action include, in particular, hiring salaried employees and calling on independent contractors, renting premises and purchasing equipment.

As of December 31, 2013, the OP3FT's operating costs amounted to 1,595,279 euros, of which 894,624 euros concerned calling on independent contractors and the rental of premises ("*Services extérieurs*" and "*Autres services extérieurs*") and 604,458 euros concerned salaried employees ("*Salaires et traitements*" and "*Charges sociales*").

"*Services extérieurs*" mainly included: services provided in relation to works carried out to ensure the progress of the Frogans technology (software development and technical specification elaboration), and premises rental costs, including the OP3FT's registered office.

"*Autres services extérieurs*" mainly included: services provided in relation to works carried out to promote and protect the Frogans technology (intellectual property expenses for trademarks and domain names, expenses related to the organization of the OP3FT's works, recruitment and human resources management costs), as well as services provided in relation to social and accounting matters and to the auditing mission of the Statutory Auditor.

As of December 31, 2013, the OP3FT's resources had been used within 12 months of reception, in accordance with its Bylaws.

As of December 31, 2013, the OP3FT had not made any reallocations as defined under Article 140 of the August 4, 2008 French Law.

V. ANNUAL FINANCIAL STATEMENT

The Statutory Auditor of the OP3FT is the firm 3A CONSEIL (34 rue de Liège, 75008 Paris, France) represented by Mr Marc de SALINELLES; the alternate Statutory Auditor is Mr Philippe COLOMBE (6 rue Brey, 75017 Paris, France).

The Chartered Accountant of the OP3FT is Cabinet HYART, represented by Mr Frédéric HYART (7 rue du Four St Jacques, 60200 Compiègne, France).

The OP3FT has prepared a financial statement, which includes a balance sheet and a revenue and expenses statement, for its second accounting period beginning on January 1, 2013 and ending on December 31, 2013.

The Annual Financial Statement for the year ending December 31, 2013 was adopted by the Board of Directors on May 6, 2014. The Statutory Auditor's report is dated June 6, 2014. The OP3FT's Annual Financial Statement was approved by the OP3FT Board of Directors on June 24, 2014.

The OP3FT Annual Financial Statement 2013 and the Statutory Auditor's report for 2013 will be published and archived on the OP3FT's Web site "op3ft.org", along with a presentation in English, within no more than 7 days after approval, at the following permanent URLs (Uniform Resource Locators):

- in English: <https://www.op3ft.org/en/resources/afs/access.html>

- in French: <https://www.op3ft.org/fr/resources/afs/access.html>

The OP3FT Annual Financial Statement 2013 and the Statutory Auditor's report for 2013 will be registered by electronic means through the Web site "<http://www.journal-officiel.gouv.fr/>".

By June 30, 2014, i.e. within 6 months following the end of its accounting period, the OP3FT will send this Activity Report to the *Préfecture de Paris*, along with the Annual Financial Statement and the Statutory Auditor's report for 2013.

Executed in Paris on June 24, 2014, in two original copies, one to be registered at the *Préfecture de Paris*, the other to be kept at the OP3FT's registered office.

On behalf of the OP3FT, Mr Amaury GRIMBERT,
President of the Board of Directors

ANNEX 1 - Events that took place over the past year concerning the properties and rights constituting the OP3FT's endowment at the beginning of the year

As of January 1, 2013, the endowment consisted of the initial endowment granted free of charge and irrevocably by its Founder when the OP3FT was created on March 17, 2012, as well as properties and rights granted during the year 2012 and which increased the endowment.

The list of properties and rights constituting the OP3FT's endowment is given in Annex 2 of the OP3FT Bylaws for the initial endowment, and in the Activity Report 2012 for properties and rights granted during the year 2012.

The events that took place between January 1, 2013 and December 31, 2013 concerning these properties and rights, are given below.

- Domain names listed in the Activity Report 2012 under part D of Annex 2, as registered and reaching expiry, have been renewed.

ANNEX 2 - Properties and rights created and developed by the OP3FT as part of its public-interest mission in relation to the Frogans technology and assigned to the increase of the endowment over the past year

Between January 1, 2013 and December 31, 2013, the OP3FT's endowment was increased in accordance with Article 17 of the Bylaws by the assignment of properties and rights created and developed by the OP3FT as part of its public-interest mission in relation to the Frogans technology, this being through its salaried employees or independent contractors, in the course of the creation and development of such properties and rights.

The list of these rights and properties is given below.

Since the OP3FT's endowment is non-expendable, properties and rights thus assigned to the endowment are inalienable and non-transferable.

A. The Frogans technology

- All research and development works regarding the development of the OP3FT technical specifications: these specifications are UPIL (ex FDKML), UCSR, UDSM, IFAP, FACR, FCR API, FPUL, FNLS, FSDL and FPRT API.
- All research and development works regarding the development of the OP3FT software libraries: these software libraries are reference implementations of the OP3FT technical specifications.
- All research and development works regarding the development of Frogans Player: this software includes FPRT, a common runtime engine, and graphical user interfaces (GUIs) for each supported platform.
- All research and development works regarding FPXDE, the cross-platform development environment of the OP3FT: this environment includes a source code compilation and assembly chain, a test system, and a wrapper generator for software libraries.
- All works relative to documentation of the Frogans technology: this documentation includes technical documents, legal documents, documents for the promotion of the Frogans technology, and Frogans site prototypes.

C. Patents

C1. The patent "Multimedia data publishing system"

None

C2. The patent "Method and system for operating a computer network which is intended for content publishing"

None

C3. The patent "A User-Friendly Process for Interacting with Informational Content on Touchscreen Devices"

- U.S. divisional patent application filed on July 9, 2013 under number 13/937,608

C4. The patent "Interaction Control Method with a Touchscreen and equipment implementing this method"

- French patent application filed on December 5, 2013 under number 13/62164

D. Domain names (with their date of creation)

D1. The domain names associated with the "FROGANS" trademark

- Identical domain names: frogans.pw (July 5, 2013), frogans.sx (July 5, 2013)

D2. The domain names associated with the "FSDL" trademark

None

D3. The domain names associated with the "FNSL" trademark

None

D4. The domain names associated with the "OP3FT" trademark

- Domain names with typographical errors: opffft.org (April 8, 2013)

D5. The other domain names associated with the Frogans technology

None

E. Generic top-level domain (gTLD)

- Delegation of the ".frogans" gTLD by means of an agreement signed on December 19, 2013 between the OP3FT and ICANN (Internet Corporation for Assigned Names and Numbers)

ANNEX 3 - Properties and rights granted free of charge and irrevocably by third parties contributing to the public-interest mission of the OP3FT in relation to the Frogans technology and assigned to the increase of the endowment over the past year

Between January 1, 2013 and December 31, 2013, the OP3FT's endowment was increased in accordance with Article 17 of the Bylaws, by the assignment of properties and rights granted free of charge and irrevocably by third parties contributing to the public-interest mission of the OP3FT in relation to the Frogans technology, and which the OP3FT accepted.

These third parties are referred to as "Contributors".

Rights related to the various contribution cases presented below were granted to the OP3FT by Contributors.

Since the OP3FT's endowment is non-expendable, properties and rights thus assigned to the endowment are inalienable and non-transferable.

1. Contribution to the development of the technical specifications

- Participation in the writing of the technical specifications: Contributors participated in the design and drafting of the OP3FT's technical specifications
- Review of technical specifications before their adoption: Contributors carried out a detailed study of the OP3FT's technical specifications before their adoption by the OP3FT

2. Contribution to the development of the software libraries

- Participation in the development of software libraries: Contributors participated in the design and programming of the OP3FT's software libraries
- Participation in the development of software library wrappers: Contributors participated in the design and programming of the OP3FT's software library wrappers
- Testing of software libraries: Contributors designed and implemented test programs for the OP3FT's software libraries and their wrappers

3. Contribution to the development of Frogans Player

- Participation in the integration and maintenance of target platforms: Contributors participated in the integration and maintenance operations of target platforms in the FPXDE development environment
- Participation in the development of the Frogans Player runtime engine: Contributors participated in the design and programming of the runtime engine of the Frogans Player software

- Participation in the development of the Frogans Player GUIs: Contributors participated in the design and programming of the Frogans Player software GUIs

4. Other contributions

- Participation in the production of practical resources: Contributors participated in the design, production and translation of practical resources to be published by the OP3FT
- Participation in the elaboration of the OP3FT's policies: Contributors participated in the drafting and translation of the OP3FT's policies
