Fonds de dotation OP3FT – 6, square Mozart 75016 Paris, France

SIREN: 750 584 864 – Numéro d'annonce JOAFE n°11 dated March 17, 2012: 1540

FOREWORD

Created in 2012, the OP3FT (Organization for the Promotion, Protection, and Progress of Frogans Technology) is a *Fonds de dotation* governed by French Law n°2008-776 of August 4, 2008 on the Modernization of the Economy.

The OP3FT is a non-profit organization acting in the public interest. Its purpose is to hold, promote, protect and ensure the progress of the Frogans technology, in the form of an open standard for the Internet, available to all, free of charge.

The OP3FT Bylaws were registered at the *Préfecture de Paris*, France, on February 21, 2012.

The declaration of creation of the OP3FT was published on March 17, 2012 in the *Journal Officiel* of the French Republic (JOAFE n°11) under number 1540.

The OP3FT's registered office is located 6 square Mozart, 75016 Paris, France.

The OP3FT was created with an initial endowment granted free of charge and irrevocably by its Founder, the company STG Interactive S.A. The OP3FT's endowment is non-expendable. Properties and rights composing the endowment are inalienable and non-transferable.

The initial endowment of the OP3FT includes properties and rights relating to the Frogans technology, notably languages, technical specifications, software development systems, software source code, trademarks, patents and domain names, as well as the related intellectual property rights. It does not include any securities nor monies.

The OP3FT carries out work to fulfill its public-interest mission in relation to the Frogans technology. This work, described in detail in Article 5 of the OP3FT Bylaws, is carried out under the responsibility of permanent working teams within the OP3FT.

The OP3FT refrains from any for-profit activity, even on an accessory basis. The OP3FT's resources for the financing of its public-interest mission are constituted by the revenues of its endowment and by any lifetime gifts that might stem from public generosity.

In accordance with the OP3FT Bylaws, the endowment revenues are exclusively derived from the operating license granted by the OP3FT to the Frogans Core Registry Operator, under a delegation agreement.

This Activity Report covers the fourth accounting period of the OP3FT, from January 1, 2015 to December 31, 2015. During this fourth accounting period of 12 months, the OP3FT (i) did not make any reallocations as defined under Article 140 of the August 4, 2008 French Law, (ii) did not receive any donations, and (iii) did receive lifetime gifts stemming from public generosity.

In accordance with the OP3FT Bylaws, this Activity Report lays out, in addition to the information required by French laws and regulations, the properties and rights assigned to the increase of the endowment over the past year, and the details of resources originating from the endowment revenues.

This Activity Report was approved by the OP3FT Board of Directors on June 28, 2016.

It will be published and archived on the OP3FT's Web site "op3ft.org", along with a translation in English, at the following permanent URLs (Uniform Resource Locators):

- in English: <https://www.op3ft.org/en/resources/ar/access.html>

- in French: <https://www.op3ft.org/fr/resources/ar/access.html>

I. MISSION AND GOVERNANCE OF THE OP3FT

I.1. REMINDER OF THE PURPOSE OF THE OP3FT

The OP3FT is a non-profit organization created on March 17, 2012 whose purpose is to hold, promote, protect and ensure the progress of the Frogans technology, in the form of an open standard for the Internet, available to all, free of charge.

More generally, the OP3FT's purpose is to contribute to the development of a secure and stable Internet that is open to innovation, and to support and finance innovative public-interest initiatives or actions of a social, educational or cultural nature in the area of information and communications technologies.

The Frogans technology, secure and simple, enables the publishing of Frogans sites. A Frogans site is a set of Frogans pages, hyperlinked to each other, available online on the Internet or in an intranet, at a Frogans address.

In a manner comparable to the development of the World Wide Web from the 90s, the OP3FT's aim is that an ecosystem flourish on top of the Frogans technology, fostering employment, innovation and economic development, in the public interest.

I.2. BOARD OF DIRECTORS

All members of the OP3FT Board of Directors are natural persons, carrying out their duties as Director in a personal capacity and without receiving a financial counterpart.

The Directors act in an independent and neutral manner with respect to special interests, including those of legal entities in which they might hold a position, whilst respecting the founding principles defined in the OP3FT Bylaws.

As of December 31, 2015, the OP3FT Board of Directors was composed of the three Initial Directors appointed on the date of the OP3FT's creation:

- Mr Amaury GRIMBERT,
- Mr Alexis TAMAS,
- Mr Alain MARTEL.

The President of the Board of Directors is Mr Amaury GRIMBERT.

Between January 1, 2015 and December 31, 2015, the OP3FT Board of Directors met 14 times at the registered office.

The main decisions of the OP3FT Board of Directors were as follows:

- to organize public, free events dedicated to the Frogans project; namely, Frogans Technology Conferences, streamed live over the Internet;
- to organize free work sessions dedicated to the Frogans project; namely, Frogans Technology Workshops, streamed live over the Internet;
- to adopt the Promotion strategy of the OP3FT for 2015, including the participation of the OP3FT in certain events worldwide;
- to adopt a program to raise awareness of the Frogans technology to the attention of design and graphics schools;
- to adopt the initial version of the Frogans Technology User Policy and its first update;
- to adopt the Rules for the registration of a Dedicated Frogans Network during the priority registration period for trademarks holders;
- to adopt the Rules for the registration of a Dedicated Frogans Network during the priority registration period for entrepreneurs;
- to extend the priority registration period for entrepreneurs;
- to adopt the Frogans Technology Development Contributor Policy;
- to adopt the update of the Rules of Procedure relative to the Uniform Dispute Resolution Policy for Frogans Addresses (UDRP-F);
- to adopt a project for the implantation of the OP3FT in China by about 2017;
- to publish the "donate.op3ft.org" Web site and to launch the Campaign to Accelerate the Frogans Project;
- to prepare an application to be submitted to the *Préfet de Paris* in order to obtain a new authorization to call on public generosity;
- to renew the terms of the Investment Committee members for a duration of 3 years;
- to finalize and approve the Annual Financial Statement and the Activity Report for the year 2014.

In 2015, the OP3FT Board of Directors did not engage in the public consultation process referred to in Article 13 of its Bylaws, since the Frogans Core Registry was not yet open to Internet users.

I.3. INVESTMENT COMMITTEE

As of December 31, 2015, the two members of the Investment Committee, considered qualified in financial management and who perform their duties without receiving a financial counterpart, were:

- Mr Julien COQUET,
- Mr Erik POINTILLART.

The Investment Committee met once during 2015. It is here restated that the OP3FT's initial endowment does not include any securities nor monies.

II. ACTIVITIES OF THE OP3FT

II.1. WORK IN RELATION TO THE FROGANS TECHNOLOGY

The work that the OP3FT must carry out in the public interest, under the supervision of the Board of Directors, is detailed in its Bylaws (Article 5, pages 5 to 10).

During the accounting period running from January 1, 2015 to December 31, 2015, work carried out by the OP3FT in order to hold, promote, protect, and ensure the progress of the Frogans technology mainly focused on:

- the general organization of the OP3FT's work in the long term;
- the management of the OP3FT's trademarks, patents and domain names;
- the development of the main, complementary and inseparable components of the Frogans technology;
- the finalization and release of the Frogans Player for Developers software, version Alpha 0.1.1 on the "get.frogans" Web site as well as its successive updates up to version Alpha 0.2.6 of 31 December;
- the drawing up of the preliminary version 3.0 of the Frogans Slide Description Language (FSDL) technical specification, published on the "frogans.org" Web site;
- the drawing up of the OP3FT's policies, including the finalization of the initial version of the Frogans Technology User Policy and of its first update; the finalization of the Frogans Technology Development Contributor Policy; the updating of the Rules of Procedure relative to the Uniform Dispute Resolution Policy for Frogans Addresses (UDPR-F), published on the "frogans.org" Web site;
- the organization of three Frogans Technology Conferences in Paris (France), the FTC 3 on January 26 and 27, the FTC 4 on June 17 and the FTC 5 on September 29, public and free events streamed simultaneously on the Internet, in English and in French;
- the organization of seven Frogans Technology Workshops in Paris (France) on April 3, April 7, April 28, April 30, May 12, May 19 and May 27, in the form of free workshops streamed on the Internet;
- the ongoing promotion of the Frogans technology to the attention of intellectual property sector professionals by way of operations worldwide, including, for example, presentations of the Frogans project at the Online Brand Protection conference on January 12 in Hong Kong (China), the ICANN 52 meeting from February 8 to 12 in Singapore (Singapore), the INTA 137 meeting from May 2 to 6 in San Diego (USA), the ADNDRC (Asian Domain Name Dispute Resolution Centre) conference on June 5 in Beijing (China), the ICANN 53 meeting from June 21 to 25 in Buenos Aires (Argentina), the 29th annual MARQUES conference from September 15 to 16 in Vienna (Austria) and the ICANN 54 meeting from October 18 to 22 in Dublin (Ireland);

- the ongoing promotion of the Frogans technology to the attention of communications and information technologies sector professionals by way of operations worldwide, including, for example, presentations of the Frogans project at NamesCon 2015 from January 11 to 14 at Las Vegas (USA), the Mobile World Congress 2015 from March 2 to 3 in Barcelona (Spain), the French Tech Tour from June 1 to 5 in Moscow (Russia), the Internet Governance Forum on June 2 in Paris (France), the EuroDIG 2015 (European Dialogue on Internet Governance) on June 4 in Sofia (Bulgaria), the Next Big Thing conference on July 1 in London (United Kingdom), POST-EXPO 2015 from September 29 to October 1 in Paris (France), the 7th Rendez-Vous Carnot from November 18 to 19 in Paris (France), and the seminar co-organized by the IRFI and Afnic on November 23 in Paris (France);
- the launch of the promotion of the Frogans technology to the attention of Internet sector entrepreneurs by way of operations worldwide, including, for example, presentations regarding the opportunities associated with the Frogans technology at the École Supérieure Polytechnique of the Cheikh Anta Diop University on 11 November in Dakar (Senegal), and during the Africa Web Festival from December 1 to 5 at Abidjan (Ivory Coast);
- the launch of a program to raise awareness of the Frogans technology to the attention of design and graphics schools including, for example, presentations of the Frogans project at the ECV Digital School (École Communication Visuelle) on November 4 in Paris (France), Évy University on November 17 in Évy (France), École ESGI (École Supérieure Génie Informatique) on November 19 in Paris (France), IUT Paris Descartes on November 24 in Paris (France), École Multimédia on December 10 in Paris (France);
- the creation of free-of-charge and reusable practical resources published on the "frogans.org" Web site to help understand, use and benefit from the Frogans technology, including, for example, a video presentation of the Frogans technology and presentations given by the OP3FT about the Frogans project during conferences and meetings with third-parties in 2015;
- the creation and online publication of the "quickstart.frogans.org" Web site intended to help stakeholders rapidly understand the Frogans technology;
- The management of the OP3FT's Web sites including the updating of the Web sites "project.frogans.org" (general presentation of the Frogans project), "nic.frogans" (presentation of the usage of the ".frogans" TLD), "get.frogans" (presentation of the downloading of the Frogans Player software), "conference.frogans.org" (presentation of Frogans Technology Conferences) and "workshop.frogans.org" (presentation of Frogans Technology Workshops);
- the management of Frogans technology mailing lists, including the read-only mailing list "announcement@lists.fcr.frogans" where 68 messages were posted during the year;
- the drawing up and publication of legal resources on "fcr.frogans", the Web site of the FCR Operator, including the "Rules for the registration of a Dedicated Frogans Network during the priority registration period for trademark holders", and the "Rules for the registration of a Dedicated Frogans Network during the priority registration period for entrepreneurs";
- the management of the ".frogans" TLD with ICANN (Internet Corporation for Assigned Names and Numbers), the company NCC Group, and Afnic (*Association Française pour le Nommage Internet en Coopération*).

In its manner of carrying out work in relation to the Frogans technology, the OP3FT made sure that the provisions of article 5 of its Bylaws were respected.

More particularly, in the choices it made while carrying out work in relation to the Frogans technology, the OP3FT endeavored to include a clear statement presenting the reasoning behind the said choices ("rationale").

As of December 31, 2015, the Board meeting minutes for the year 2012 had been published, in French, on the OP3FT's Web site "op3ft.org". However, with the exception of the Board meeting of June 11, 2013, their translation, in English, as well as the other Board meeting minutes had not yet been published and archived, along with their translation in English.

In accordance with its Bylaws, the OP3FT carried out work in relation to the Frogans technology according to the financial and human resources at its disposal in 2015.

II.2. OTHER PUBLIC-INTEREST ACTIONS FINANCED BY THE OP3FT

The purpose of the OP3FT includes supporting and financing innovative public-interest initiatives or actions of a social, educational or cultural nature in the area of information and communications technologies, where the selection criteria are set by the Board of Directors.

The supporting and financing of these actions, programs or initiatives are conducted in accordance with the principles of openness and transparency that enable as many people as possible to benefit from the progress made in the area of information and communications technologies.

During the year 2015, the OP3FT did not finance any innovative public-interest initiatives or actions led by third parties, as it had used all available resources to finance work carried out to ensure its public-interest mission in relation to the Frogans technology.

Consequently, the OP3FT did not make any reallocations as defined under Article 140 of the August 4, 2008 French Law.

II.3. ORGANIZATION AND INTERNAL FUNCTIONING

The OP3FT's salaried employees and independent contractors give a formal undertaking to act in a fully independent and neutral manner with regards to special interests and to respect the founding principles defined in the OP3FT Bylaws.

As of December 31, 2015, the OP3FT work teams consisted of 37 persons, as follows:

- 12 salaried employees and 1 trainee;
- 17 specialized independent contractors intervening regularly;
- 4 regular contributors, including the two Inventors of the Frogans technology mentioned in article 9 of the OP3FT Bylaws.

These work teams consist of individuals with varied profiles (engineers, legal professionals, etc.), intervening in work related to the promotion, protection and progress of the Frogans technology.

During the year 2015, 23 specialized independent contractors intervened occasionally, as did 13 specialized independent contractors for the organization of the Frogans Technology Conferences.

As of December 31, 2015, the Rules of Procedure of the OP3FT were in the process of being drafted by the Board of Directors.

II.4. DEALINGS WITH THIRD PARTIES

During the year 2015, the OP3FT continued to have recourse to independent contractors intervening regularly or occasionally within the work teams. The OP3FT service agreement signed with these contractors guarantees, in particular, that the OP3FT fully and completely owns the work carried out by them, so that the OP3FT, by decision of the Board of Directors, can assign such work, in whole or in part, to the OP3FT's endowment.

Within the context of the delegation agreement signed on March 19, 2012, the OP3FT and the Frogans Core Registry Operator regularly cooperated throughout the entire year of 2015 on legal, technical and administrative matters relative to the development and to the implementation of the Frogans Core Registry.

During the year 2015, the OP3FT pursued its relations with ICANN (the Internet Corporation for Assigned Names and Numbers) relative to the delegation of the ".frogans" TLD, as well as with the English company NCC Group for the data-escrow services that every Registry operator of a TLD must implement.

During the year 2015, the OP3FT also pursued its relations with Afnic (*Association Française pour le Nommage Internet en Coopération*), the French Network Information Centre, within the context of the DNS back-end registry operator contract signed for the operation of the ".frogans" TLD.

As part of the organization of the Frogans Technology Conferences (FTC), the OP3FT called on a number of contractors in the course of the year 2015, in particular to be able to stream FTC 3, 4 and 5 over the Internet, and provide simultaneous interpretation of the conferences in English and French.

Within the framework of the creation of free-of-charge and reusable practical resources to help understand, use and benefit from the Frogans technology, the OP3FT was called upon to have recourse, during 2015, to translators of these resources into Spanish, Portuguese, German, Italian, simplified Chinese, traditional Chinese, Japanese, Korean, Arabic, Russian, Hebrew, Hindi, Thai and Greek.

III. ENDOWMENT OF THE OP3FT

III.1. INITIAL ENDOWMENT

In accordance with the OP3FT Bylaws, the OP3FT's endowment is non-expendable. Properties and rights composing the endowment are inalienable and non-transferable, regardless of whether they were granted at the time of the OP3FT's creation as the initial endowment, or during its lifetime pursuant to an increase of the endowment.

The OP3FT was created with an initial endowment granted free of charge and irrevocably by its Founder. The initial endowment includes properties and rights relating to the Frogans technology, notably languages, technical specifications, software development systems, software source code, trademarks, patents and domain names, as well as the related intellectual property rights.

The complete list of properties and rights composing the initial endowment is given in Annex 2 of the OP3FT Bylaws. The initial endowment does not include any securities nor monies.

The events that took place over the past year covering the properties and rights composing the OP3FT's endowment at the beginning of the year are given in Annex 1 of this Activity Report.

As of December 31, 2015, all concerned national, regional and international offices had processed notices of transfer to the benefit of the OP3FT regarding trademarks, patents and domain names, with the exception, however, of notices of transfer still in course for trademarks in Saudi Arabia, Brazil, India, Malaysia, Indonesia, Argentina, China, Thailand, Venezuela, Chile, Peru, United Arab Emirates and OAPI, as well as some domain names.

III.2. INCREASE OF THE ENDOWMENT

In accordance with the OP3FT Bylaws, the endowment is increased, during the OP3FT's lifetime, by properties and rights assigned to it.

The properties and rights created and developed in 2015 by the OP3FT as part of its public-interest mission in relation to the Frogans technology, through its salaried employees and independent contractors, were assigned to the OP3FT's endowment.

These properties and rights created and developed by the OP3FT as part of its public-interest mission in relation to the Frogans technology and assigned to the increase of the endowment over the past year are listed in Annex 2 of this Activity Report.

Likewise, properties and rights granted free of charge and irrevocably in 2015 by third parties, including by the two Inventors of the Frogans technology, and contributing to the public-interest mission of the OP3FT in relation to the Frogans technology, were assigned to the endowment.

These properties and rights granted free of charge and irrevocably by third parties contributing to the public-interest mission of the OP3FT in relation to the Frogans technology and assigned to the increase of the endowment over the past year are listed in Annex 3 of this Activity Report.

In order not to restrict the conditions of use of the Frogans technology, these third parties, referred to as "Contributors", granted free of charge and irrevocably, all and any rights relative to their contributions to the OP3FT, in accordance with the OP3FT Bylaws.

IV. RESOURCES OF THE OP3FT

IV.1. ENDOWMENT REVENUES

In accordance with its Bylaws, the OP3FT refrains from any for-profit activity, even on an accessory basis. Consequently, no revenue from profit-making activities of the OP3FT, nor compensation for services provided by the OP3FT, may be added to its resources.

The OP3FT's resources for the financing of its public-interest mission are constituted by the revenues of its endowment.

In accordance with the OP3FT Bylaws, endowment revenues are derived exclusively from the operating license granted by the OP3FT to the Frogans Core Registry Operator (FCR), under the delegation agreement.

As of December 31, 2015, endowment revenues derived from the Frogans Core Registry operating license granted by the OP3FT to the Operator amounted to 1,800,000 euros, recorded as "*Revenus de la dotation*".

By way of a decision taken by the Board of directors on April 29, 2013, the OP3FT granted the FCR Operator payment delays for the monthly royalties payment due under the FCR operating license. The number of monthly royalties payments remaining due to the OP3FT as of December 31, 2015 was 6.5.

This decision was taken owing to the reorganization of the opening schedule of the FCR, as a result of the development work done by the OP3FT and by the FCR Operator taking longer than planned. Since the opening of the FCR to Internet users has not yet taken place, this has delayed, accordingly, the commercialization of the FCR addressing services.

IV.2. LIFETIME GIFTS STEMMING FROM PUBLIC GENEROSITY

As of December 31, 2015, the OP3FT had received lifetime gifts stemming from public generosity for a total amount of 8,422 euros. These lifetime gifts made it possible to accelerate the Frogans project and support employment, innovation and economic development. A resource and expenditure account was prepared for the accounting period ending December 31, 2015.

The OP3FT obtained authorization, by way of a prefectural ruling dated November 7, 2014, to call on public generosity from November 3, 2014 to November 3, 2015, followed by another prefectural ruling dated November 13, 2015, to call on public generosity from October 19, 2015 to October 19, 2016.

IV.3. USE OF RESOURCES

In accordance with its Bylaws, the OP3FT's resources are used to finance work carried out to fulfill its public-interest mission in relation to the Frogans technology, as well as the OP3FT's expenditures for day-to-day management.

As of December 31, 2015, the OP3FT had the ways of using its resources described in part II of this Activity Report. These ways include, in particular, hiring salaried employees and calling on independent contractors, renting premises and purchasing equipment.

As of December 31, 2015, the OP3FT's operating costs amounted to 2,117,748 euros, of which 1,278,184 euros concerned calling on independent contractors and the rental of premises ("*Services extérieurs*" and "*Autres services extérieurs*") and 740,129 euros concerned salaried employees ("*Salaires et traitements*" and "*Charges sociales*").

"*Services extérieurs*" mainly included: services provided in relation to work carried out to ensure the progress of the Frogans technology (software development and drawing up of technical specifications), and premises rental expenses, including the OP3FT's registered office.

"Autres services extérieurs" mainly included: services provided in relation to work carried out to promote and protect the Frogans technology (intellectual property expenses for trademarks and domain names, expenses related to the organization of the OP3FT's work, recruitment and human resources management costs), as well as services provided in relation to social and accounting matters and to the auditing mission of the Statutory Auditor.

As of December 31, 2015, the net income was a loss of 314,392 euros. The OP3FT intends to improve the net income by receiving lifetime gifts stemming from public generosity as part of its Campaign to Accelerate the Frogans Project.

As of December 31, 2015, the OP3FT's resources had been used within 12 months of reception, in accordance with its Bylaws.

As of December 31, 2015, the OP3FT had not made any reallocations as defined under Article 140 of the August 4, 2008 French Law.

V. ANNUAL FINANCIAL STATEMENT

The Statutory Auditor of the OP3FT is the firm 3A CONSEIL (34 rue de Liège, 75008 Paris, France) represented by Mr Marc de SALINELLES; the alternate Statutory Auditor is Mr Philippe COLOMBE (6 rue Brey, 75017 Paris, France).

The Chartered Accountant of the OP3FT is Cabinet HYART, represented by Mr Frédéric HYART (7 rue du Four St Jacques, 60200 Compiègne, France).

The OP3FT has prepared a financial statement, which includes a balance sheet, a revenue and expenses statement and a resource and expenditure account, for its fourth accounting period beginning on January 1, 2015 and ending on December 31, 2015.

The Annual Financial Statement for the accounting period ending December 31, 2015 was finalized by the Board of Directors on May 2, 2016. The Statutory Auditor's report is dated June 27, 2015. The OP3FT's Annual Financial Statement was approved by the OP3FT Board of Directors on June 28, 2016.

The OP3FT Annual Financial Statement 2015 and the Statutory Auditor's report will be published and archived on the OP3FT's Web site "op3ft.org", along with a presentation in English, at the following permanent URLs (Uniform Resource Locators):

- in English: <https://www.op3ft.org/en/resources/afs/access.html>

- in French: <https://www.op3ft.org/fr/resources/afs/access.html>

The OP3FT Annual Financial Statement 2015 and the Statutory Auditor's report will be registered by electronic means through the "http://www.journal-officiel.gouv.fr/" Web site.

By June 30, 2016, i.e. within 6 months following the end of its accounting period, the OP3FT will send this Activity Report to the *Préfecture de Paris*, along with the Annual Financial Statement 2015 and the Statutory Auditor's report.

Executed in Paris on June 28, 2016, in two original copies, one to be registered at the *Préfecture de Paris*, the other to be kept at the OP3FT's registered office.

On behalf of the OP3FT, Mr Amaury GRIMBERT,
President of the Board of Directors

ANNEX 1 - Events over the past year covering the properties and rights composing the OP3FT's endowment at the beginning of the year

As of January 1, 2015, the OP3FT's endowment consisted of the initial endowment granted free of charge and irrevocably by its Founder when the OP3FT was created on March 17, 2012, as well as properties and rights granted during the years 2012 to 2014 which increased the endowment.

The list of properties and rights composing the OP3FT's endowment is given in Annex 2 of the OP3FT Bylaws for the initial endowment, and in Annex 2 of the Activity Reports for 2012, 2013 and 2014 for properties and rights granted between 2012 and 2014.

The events that took place between January 1, 2015 and December 31, 2015 covering these properties and rights, are given below.

A. The Frogans technology

None

B. Trademarks

B1. The two "superimposed rectangles" yellow and blue figurative trademark

- Trademarks filed directly in the following countries, registered:

COUNTRY	FILING DATE	REGISTRATION	FILING #	CLASSES
Kosovo	August 3, 2012	December 16, 2015 (#18204)	3405	9, 35, 38, 42

B2. The "FROGANS" word trademark

- Trademarks filed directly in the following countries, registered:

COUNTRY	FILING DATE	REGISTRATION	FILING #	CLASSES
Kosovo	August 3, 2012	December 16, 2015 (#18203)	3244	9, 35, 38, 42

B3. The "FNSL" word trademark

- The French trademark filed November 30, 2005 under number 53394907 was not renewed when it expired in 2015 because it was replaced by the Community trademark (OHIM) which was filed and registered on May 21, 2007 under number 5136965.

B4. The "FSDL" word trademark

- The French trademark filed November 30, 2005 under number 53394910 was not renewed when it expired in 2015 because it was replaced by the Community trademark (OHIM) which was filed and registered on May 21, 2007 under number 5136973.

B5. The "*" figurative trademark

- Trademarks filed directly in the following countries, registered:

COUNTRY	FILING DATE	REGISTRATION	FILING #	CLASSES
Canada	July 29, 2010	January 14, 2015 (#893 986)	1490535	42

B6. The "OP3FT" word trademark

- Trademarks filed directly in the following countries, registered:

COUNTRY	FILING DATE	REGISTRATION	FILING #	CLASSES
Brazil	June 13, 2012	July 7, 2015	840159641	35

Brazil	June 13, 2012	July 7, 2015	840159625	45

B7. The "FPUL" word trademark

- International trademark (WIPO) registered in the following countries:

COUNTRY	FILING DATE	REGISTRATION	FILING #	CLASSES
Singapore	March 27, 2013	June 15, 2015	1174596	9, 38, 42

The information given below covering the "FPUL" word trademark updates the information given in the 2014 Activity Report (Annex 2) since, contrary to what had been indicated, the trademark had not been refused in South Korea:

COUNTRY	FILING DATE	REGISTRATION	FILING #	CLASSES
South Korea	March 27, 2013	December 29, 2015	1174596	9, 38, 42

B8. The transcriptions of the "FROGANS" word trademark

- Trademarks filed directly in the following countries, registered:

Trademark	COUNTRY	FILING DATE	REGISTRATION	FILING #	CLASSES
فروجنز	United Arab Emirates	August 5, 2014	January 11, 2015 (#13/07/2493)	215323	38
프로강스	South Korea	July 3, 2014	December 31, 2015 (#45-61618)	45-2014-5132	9, 38, 42

- International trademarks (WIPO) filed directly in the following countries, registered:

Trademark	COUNTRY	FILING DATE	REGISTRATION	FILING #	CLASSES
フロガンズ	Japan	January 5, 2015	January 5, 2015	1246819	9, 38, 42
Фроганс	Russian Federation	January 13, 2015	January 13, 2015	1250728	9, 38, 42
फ्रॉगेन्स	India	January 13, 2015	January 13, 2015	1246829	9, 38, 42

- The information given below covering the Chinese transcription of the "FROGANS" word trademark updates the information given in the 2014 Activity Report (Annex 2):

Trademark	COUNTRY	FILING DATE	REGISTRATION	FILING #	CLASSES
福更斯	China	December 8, 2014	December 8, 2014	1246810	9, 38, 42

C. Patents

C1. The patent "Multimedia data publishing system"

- European patent filed under number 01945383 is still the subject of a *restitutio in integrum* procedure in course before the Boards of appeal of the European Patent Office.
- Japanese patent issued January 30, 2015 under number 2002-502631

C2. The patent "Method and system for operating a computer network which is intended for content publishing"

None

C3. The patent "A User-Friendly Process for Interacting with Informational Content on Touchscreen Devices"

None

C4. The patent "Interaction Control Method with a Touchscreen and equipment implementing this method"

- PTC patent application filed on December 1, 2014 under number PCT/FR2014/053100 was published under international publication number WO/2015/082817 on June 11, 2015 by WIPO (World Intellectual Property Organization)

D. Domain names

- Domain names listed in the Bylaws, under part D of Annex 2, as registered and reaching expiry, were renewed.
- Domain names listed in the Activity Reports for 2012, 2013 and 2014 under part D of Annex 2, as registered and reaching expiry, were renewed.

E. Top-level domain (TLD)

- Domain names listed in the Activity Reports for 2014, under part D of Annex 2, are still activated in the DNS and/or created but not activated in the DNS.

ANNEX 2 - Properties and rights created and developed by the OP3FT as part of its public-interest mission in relation to the Frogans technology and assigned to the increase of the endowment over the past year

Between January 1, 2015 and December 31, 2015, the OP3FT's endowment was increased in accordance with Article 17 of the Bylaws by the assignment of properties and rights created and developed by the OP3FT as part of its public-interest mission in relation to the Frogans technology, this being through its salaried employees or independent contractors, in the course of the creation and development of such properties and rights.

The list of these rights and properties is given below.

Since the OP3FT's endowment is non-expendable, properties and rights thus assigned to the endowment are inalienable and non-transferable.

A. The Frogans technology

- All research and development work covering the development of the OP3FT technical specifications: these specifications are UPIL (ex FDKML), UCSR, UDSM, IFAP, FACR, FCR API, FPUL, FNSL, FSDL and FPRT API.
- The preliminary version 3.0 of the Frogans Slide Description Language (FSDL) technical specification.
- All research and development work covering the development of the OP3FT software libraries: these software libraries are reference implementations of the OP3FT technical specifications.
- All research and development works covering the development of Frogans Player: this software includes FPRT, a common runtime engine, and graphical user interfaces (GUIs) for each supported platform.
- Frogans Player for Developers, Alpha version 0.1.1 to Alpha version 0.2.6.
- All research and development work covering FPXDE, the cross-platform development environment of the OP3FT: this environment includes a source code compilation and assembly chain, a test system, and a wrapper generator for software libraries.
- All work covering documentation of the Frogans technology: this documentation includes technical documents, legal documents, documents for the promotion of the Frogans technology, and Frogans site prototypes.

B. Trademarks

B1. The two "superimposed rectangles" yellow and blue figurative trademark

None

B2. The "FROGANS" word trademark

None

B3. The "FNSL" word trademark

None

B4. The "FSDL" word trademark

None

B5. The "*" figurative trademark

None

B6. The "OP3FT" word trademark

None

B7. The "FPUL" word trademark

None

B8. The transcriptions of the "FROGANS" word trademark

None

C. Patents

C1. The patent "Multimedia data publishing system"

None

C2. The patent "Method and system for operating a computer network which is intended for content publishing"

None

C3. The patent "A User-Friendly Process for Interacting with Informational Content on Touchscreen Devices"

None

C4. The patent "Interaction Control Method with a Touchscreen and equipment implementing this method"

None

D. Domain names (with their date of creation)

D1. The domain names associated with the "FROGANS" trademark

None

D2. The domain names associated with the "FSDL" trademark

None

D3. The domain names associated with the "FNSL" trademark

None

D4. The domain names associated with the "OP3FT" trademark

None

D5. The other domain names associated with the Frogans technology

None

E. Top-level domain (TLD)

None

ANNEX 3 - Properties and rights granted free of charge and irrevocably by third parties contributing to the public-interest mission of the OP3FT in relation to the Frogans technology and assigned to the increase of the endowment over the past year

Between January 1, 2015 and December 31, 2015, the OP3FT's endowment was increased in accordance with Article 17 of the Bylaws, by the assignment of properties and rights granted free of charge and irrevocably by third parties contributing to the public-interest mission of the OP3FT in relation to the Frogans technology, and which the OP3FT accepted.

These third parties are referred to as "Contributors".

Rights related to the various contribution cases presented below were granted to the OP3FT by Contributors.

Since the OP3FT's endowment is non-expendable, properties and rights thus assigned to the endowment are inalienable and non-transferable.

1. Contribution to the development of the technical specifications

- Participation in the writing of the technical specifications: Contributors participated in the design and drafting of the OP3FT's technical specifications
- Review of technical specifications before their adoption: Contributors carried out a detailed study of the OP3FT's technical specifications before their adoption by the OP3FT

2. Contribution to the development of the software libraries

- Participation in the development of software libraries: Contributors participated in the design and programming of the OP3FT's software libraries
- Participation in the development of software library wrappers: Contributors participated in the design and programming of the OP3FT's software library wrappers
- Testing of software libraries: Contributors designed and implemented test programs for the OP3FT's software libraries and their wrappers

3. Contribution to the development of Frogans Player

- Participation in the integration and maintenance of target platforms: Contributors participated in the integration and maintenance operations of target platforms in the FPXDE multi-platform development environment
- Participation in the development of the Frogans Player runtime engine: Contributors participated in the design and programming of the runtime engine of the Frogans Player software

- Participation in the development of the Frogans Player GUIs (Graphical User Interfaces): Contributors participated in the design and programming of the GUI for the Frogans Player software GUI

4. Other contributions

- Participation in the production of practical resources: Contributors participated in the design, production and translation of practical resources to be published by the OP3FT
- Participation in the drawing up of the OP3FT's policies: Contributors participated in the drafting and translation of the OP3FT's policies
